## URGENT, PLEASE DO NOT IGNORE

27 November 2017

Dear Parent/Guardian

RE: MEASLES, CHICKENPOX & SHINGLES

Please may we ask for your co-operation in an important matter.

One of our pupils is receiving medical treatment for a serious illness which puts them at risk if they are exposed to Measles, Chickenpox, Shingles or any other serious illness.

Please do not send your child to school if you suspect they have Chickenpox, Shingles, Measles or any other serious illness which may be infectious to others.

Please let us know immediately if your child is suspected of having Measles.

Our pupil is also at risk from Chickenpox and would need to be given an injection within three days of contact. If your child is suspected of having Chickenpox, you should let us know immediately.

It is also important that you let us know if there is Shingles in your household.

Your child is not at any risk whatsoever from this situation. However, the health and well-being of our pupil who is at risk does depend on the co-operation of all other parents and we hope you can help us.

With many thanks.

Yours sincerely

*D Smith*
